ABOUT SAJOREC:

Sino-Africa Joint Research center (SAJOREC) is a talent cultivation and scientific research institute aided by the Chinese government on the basis of the exchange of official letters between Chinese and Kenyan Governments.

The headquarters of SAJOREC covers a land area of 40 acres on the Jomo Kenyatta University of Agriculture and Technology (JKUAT) Main campus in Juja, Kiambu County in Kenya.

The SAJOREC initiative primarily seeks to foster collaborative research and promote conservation of biodiversity through learning, training and research.

Main entrance to the research centre facility

FACILITIES

a) Laboratories

The research centre which occupies 3 acres comprises administration offices, conference and accommodation facilities, and six specialist research laboratories fully equipped to engage in cutting-edge research. The laboratories are: 1) Biodiversity Conservation & Utilization Laboratory 2) Microbiology Laboratory 3) Geographic Information Systems and Remote Sensing Laboratory, 4) Natural Products Laboratory, 5) Water Resources Management Laboratory, 6) Cell and Molecular Biology Laboratory.
