

**JOMO KENYATTA UNIVERSITY OF AGRICULTURE AND TECHNOLOGY**  
**COLLEGE OF PURE AND APPLIED SCIENCES**  
**ALTERNATIVE DEGREE PROGRAMME**  
**MAY 2014**  
**BACHELORS DEGREE PROGRAMMES**

Applications are invited for admissions into the following programmes for self-sponsored students in the Faculty of Science starting in **May 2014**. The deadline for applications is **28<sup>th</sup> March 2014**.

**Minimum Admission Requirements**

	Course	Minimum Entry Requirements
1.	B.Sc. Industrial Chemistry	<p><b>KCSE mean grade of C+</b>. In addition, a student must have  <b>EITHER</b>  <b>Chemistry C+</b>, Pass in any two of the following alternatives  <b>Biology C-, Physics C- and Mathematics C-(BCM pass)</b>  <b>OR</b>            Have a minimum of 2 principal passes in science subjects in IGCE/GCE or KACE.  <b>OR</b>            Have a Diploma in the relevant science subjects from an institution recognized by the University Senate,  <b>OR</b>            Have any other qualifications accepted by the University Senate as equivalent to any of the above.</p> <p><b>NB: Diploma Holders with at least Credit Pass will Join 2nd Year Level</b></p>
2.	B.Sc. Analytical Chemistry	<p><b>KCSE mean grade of C+</b>. In addition, a student must have  <b>EITHER</b>            The following alternative combinations of cluster subjects, at the minimum grades shown:  <b>Chemistry C+, Physics C- and Mathematics C-</b>            Have a minimum of 2 principal passes in science subjects in IGCE/GCE or KACE.  <b>OR</b>            Have a Diploma in the relevant science subjects from an institution recognized by the University Senate,  <b>OR</b>            Have any other qualifications accepted by the University Senate as equivalent to any of the above.</p> <p><b>NB: Diploma Holders with Credit Pass will Join 2nd Year Level whereas HND Holders will Join 3rd year Level</b></p>
3.	B.sc Biotechnology	<p><b>KCSE mean grade of C+</b>. In addition, a student must have  <b>Biology C+</b>, Pass in any two of the following alternatives <b>EITHER</b>  <b>Chemistry C-, Physics C- and Mathematics C-(BCM pass) Geography/Agriculture C-</b>  <b>OR</b>            Have a minimum of 2 principal passes in science subjects in IGCE/GCE or KACE.  <b>OR</b>            Have a Diploma in the relevant science subjects from an institution recognized by the University Senate,  <b>OR</b>            Have any other qualifications accepted by the University Senate as equivalent to any of the above.</p>

	Course	Minimum Entry Requirements						
		<b>NB: NB: Diploma Holders with Credit Pass will Join 2nd Year Level whereas HND Holders will Join 3rd year Level</b>						
4.	B.Sc. Mathematics and Computer Science	<p><b>KCSE mean grade of C+.</b> In addition, a student must have EITHER</p> <p>The following alternative combinations of cluster subjects, at the minimum grades shown:</p> <p><b>Mathematics C+</b> Pass in any two of the following alternatives</p> <table border="0" style="width: 100%;"> <tr> <td style="width: 50%;"><b>Alternative A</b></td> <td style="width: 50%;"><b>Alternative B</b></td> </tr> <tr> <td>Chemistry C-</td> <td>Physical Science C-</td> </tr> <tr> <td>Physics C-</td> <td>Biological Science C-</td> </tr> </table> <p>Have a minimum of 2 principal passes in science subjects in IGCE/GCE or KACE. OR Have a Diploma in the relevant science subjects from an institution recognized by the University Senate, OR Have any other qualifications accepted by the University Senate as equivalent to any of the above.</p> <p><b>NB: Diploma Holders with Credit Pass will Join 2nd Year Level whereas HND Holders will Join 3rd year Level</b></p>	<b>Alternative A</b>	<b>Alternative B</b>	Chemistry C-	Physical Science C-	Physics C-	Biological Science C-
<b>Alternative A</b>	<b>Alternative B</b>							
Chemistry C-	Physical Science C-							
Physics C-	Biological Science C-							
5.	B.Sc. Control and Instrumentation	<p><b>KCSE mean grade of C+.</b> In addition, a student must have EITHER</p> <p>The following alternative combinations of cluster subjects, at the minimum grades shown:</p> <p><b>Physics C+</b> Pass in any two of the following: <b>Biology C-, Chemistry C- and Mathematics C-</b> OR Have a minimum of 2 principal passes in science subjects in IGCE/GCE or KACE. OR Have a Diploma in the relevant science subjects from an institution recognized by the University Senate, OR Have any other qualifications accepted by the University Senate as equivalent to any of the above.</p> <p><b>NB: Diploma Holders with Credit Pass will Join 2nd Year Level whereas HND Holders will Join 3rd year Level</b></p>						
6.	B.Sc. Actuarial Science	<p><b>KCSE mean grade of C+.</b> In addition, a student must have the following combinations of cluster subjects, at the minimum grades shown:</p> <p><b>Mathematics C+ and English C+</b> OR Have a minimum of 2 principal passes in science subjects in IGCE/GCE or KACE. OR Have a Diploma relevant science subjects from an institution recognized by the University Senate, OR Have any other qualifications accepted by the University Senate as equivalent to any of the above.</p>						
7.	B.Sc. Financial Engineering	<p><b>KCSE mean grade of C+.</b> In addition, a student must have the following combinations of cluster subjects, at the minimum grades shown:</p>						

	Course	Minimum Entry Requirements
		<p><b>Mathematics C+ and English C+</b> OR Have a minimum of 2 principal passes in science subjects in IGCE/GCE or KACE. OR Have a Diploma relevant science subjects from an institution recognized by the University Senate, OR Have any other qualifications accepted by the University Senate as equivalent to any of the above.</p>
8.	B.Sc. Biostatistics	<p><b>KCSE mean grade of C+.</b> In addition, a student must have the following alternative combinations of cluster subjects, at the minimum grades shown: <b>Mathematics C+, English C+ and Biology C-/Biological Sciences C</b> OR Have a minimum of 2 principal passes in science subjects in IGCE/GCE or KACE. OR Have a Diploma relevant science subjects from an institution recognized by the University Senate, OR Have any other qualifications accepted by the University Senate as equivalent to any of the above. <b>NB: Diploma Holders with Credit Pass will Join 2nd Year Level</b> **This course offers statistical techniques and methodology for Design of experiments, analysis of data and other areas of statistics within life sciences. **</p>
9.	B.Sc. Statistics	<p><b>KCSE mean grade of C+.</b> In addition, a student must have the following alternative combinations of cluster subjects, at the minimum grades shown: <b>Mathematics C+ and English C+</b> OR Have a minimum of 2 principal passes in science subjects in IGCE/GCE or KACE. OR Have a Diploma relevant science subjects from an institution recognized by the University Senate, OR Have any other qualifications accepted by the University Senate as equivalent to any of the above. <b>NB: Diploma Holders with Credit Pass will Join 2nd Year Level</b> **This course focuses on statistical science and its application to real problems. Statistical techniques and methodologies including collecting, compilation and designing of experiments and analysis of data are handled. **</p>
10.	BSc in Microbiology	<p><b>KCSE mean grade of C+.</b> In addition a student must have <b>B- in Biology, C- in Mathematics, C- in Chemistry</b> and at least <b>C-</b> in either <b>English, Kiswahili, Physics, Geography/Agriculture</b> OR Have a minimum of <b>two principal passes</b> in Science subjects in <b>KACE</b> one of which must be <b>Biology</b> OR Have a Diploma in relevant subjects from an institution recognized by the University Senate OR Have a Higher National Diploma with a credit pass in a <b>Microbiology related subject</b> from an institution recognized by the University senate OR Have any other qualifications accepted by the University Senate as equivalent to any of</p>

	Course	Minimum Entry Requirements
		the above. <b>NB: Diploma Holders with Credit Pass will Join 2nd Year Level whereas HND may join 3<sup>rd</sup> year level.</b>

*\*NB. These are the minimum requirements; other conditions may apply.*

Application procedure and deadline

Candidates seeking admission are required to fill application forms obtained from the offices indicated below upon payment of non-refundable application fees of Kshs.1, 500/- . The same information and application forms can also be found in the University Website; [www.jkuat.ac.ke](http://www.jkuat.ac.ke).

For more information, please contact:-

**THE PRINCIPAL, COPAS**

P.O. BOX 62000 – 00200

NAIROBI, KENYA

**JOMO KENYATTA UNIVERSITY  
OF  
AGRICULTURE AND TECHNOLOGY  
COLLEGE OF ENGINEERING AND TECHNOLOGY (COETEC)  
SELF-SPONSORED DEGREE PROGRAMMES IN ENGINEERING  
(SEPTEMBER 2014 INTAKE)**

Jomo Kenyatta University of Agriculture and Technology invites applications for the following programs in the College of Engineering and Technology (COETEC), to be offered at the main campus, Juja:

1. **Bachelor of Science in Electrical and Electronic Engineering**
2. **Bachelor of Science in Electronic and Computer Engineering**
3. **Bachelor of Science in Telecommunication and Information Engineering**
4. **Bachelor of Science in Civil Engineering**
5. **Bachelor of Science in Geomatic Engineering and Geospatial Information Systems**
6. **Bachelor of Science in Geospatial Information Science(4 Year Program)**
7. **Bachelor of Science in Mechatronic Engineering**
8. **Bachelor of Science in Mechanical Engineering**
9. **Bachelor of Science in Agricultural and Biosystems Engineering**
10. **Bachelor of Science in Marine Engineering**
11. **Bachelor of Science in Mining and Mineral Processing Engineering**

**NAKURU CBD CAMPUS**

- **Bachelor of Science in Civil Engineering**
- **Bachelor of Science in Electrical and Electronic Engineering**
- Applications are invited for the above mentioned courses to be offered at Nakuru CBD campus. Classes will be held at Nakuru campus, while laboratory sessions and practicals will be held at the main campus, Juja.
- Diploma courses will be offered for mid-entry.

The following shall be eligible for consideration for admission into the degree programme:

- (i) Kenya Certificate of Secondary Education (KCSE) who have at least a mean aggregate of grade B– (minus); **and** mean grade for the total score in the four JAB cluster subjects of at least B(plain);**and** the following minimum grades in the individual cluster subjects: **Alternative A** - Mathematics C+(plus), Physics C+(plus), Chemistry C+(plus), or any of Group II C+(plus); or any of Group III C+(plus); or any of Group IV C+(plus); or any of Group V C+(plus); **Alternative B-** Mathematics C+(plus), Physical

Sciences B(plain), Biological Sciences C+(plus), and Geography or any of Group IV C+(plus), **or** equivalent qualification obtained in other examination systems. **However, for program No. 6 the minimum requirement is a mean grade of C+ (plus) and the minimum grade in the individual cluster subjects is same as above**

- or**
- (ii) Kenya Advanced Certificate of Education (KACE) (or the A-level) applicants who have at least two principal passes in Mathematics and Physics; **and** at least a total score of nine (9) points, **and** at least a credit pass in Chemistry at the KCE or its equivalent
- or**
- (iii) Diploma applicants holding:  
JKUAT University Diploma with at least a Credit pass in the relevant discipline, and satisfactory mean/subject grades at O-Levels or equivalent. Such applicants will be eligible to join the second year of study.
- or**
- Ordinary Diploma from an institution recognized by the Senate having been awarded and examined by the Kenya National examinations Council or any other external examinations body recognized by the University Senate as being of equivalent status, with a pass in relevant discipline and satisfactory mean/subject grades at O-Levels or equivalent.
- or**
- (iv) A holder of any other qualifications recognized by the Senate as equivalent to (i), (ii) or above.
- or**
- (v) A holder of Higher National Diploma offered by KNEC **or**  
A holder of any other qualifications recognized by the Senate as equivalent to Higher National Diploma offered by KNEC.

## DURATION

Each programme takes a total of ten semesters of sixteen weeks each and a total of 24 weeks of practical attachment except for Bachelor of Science in Geospatial Information Science, which will take four years.

## COURSE BRIEF

### Electrical and Electronic Engineering

The degree program is designed to produce a graduate engineer who has knowledge in the core areas of electrical and electronic engineering. These include electronics, telecommunication, control, electrical machines and power systems. In the final two years, the students specialize in either light current or heavy current option. The students are expected to learn a systematic and analytical approach to electrical and electronic engineering to enable them to carry out design, implementation, maintenance and research work. The career paths are wide and varied and the graduates can find work in industries such as aviation, manufacturing, telecommunication, media (electronic and print), building/construction, power and energy management.

### Electronic and Computer Engineering

This is a discipline that embodies the science and technology of design, construction, implementation and maintenance of software and hardware components of modern computing systems and computer-controlled equipment. It combines both electronic engineering and computer science. This field of engineering not only focuses on how computer systems themselves work, but also how they integrate into the larger picture. A graduate engineer will have extensive understanding of electronic devices such as microprocessors, local and wide area networks and even supercomputers that form the basis for worldwide communications. The graduates will be equipped with the skills necessary to design, implement and maintain electronic and computer systems and develop software for a wide variety of engineering applications. The graduates can find work in fields such as telecommunications, transportation, manufacturing, and computer hardware and software development.

### **Telecommunication and Information Engineering**

The degree program is designed to provide qualified manpower in the rapidly growing telecommunication and Information Engineering field and to facilitate research, design, development and production of new ideas, processes and products in this field. The graduates will have an in-depth knowledge in various new communication and information technologies such as mobile phones and facilities for data transfer including facsimile, e-mail, internet and video/data.

### **Civil Engineering**

Civil Engineering involves the research, design and construction of Buildings, Bridges, Roads, Dams, Airports, Water Supply and Wastewater Systems, Transportation Systems, Underground and Coastal Structures, Environmental systems, Tunnels, etc. The BSc Civil Engineering degree program aims at producing Engineers with training in the fields of structural, geotechnical, highway, transportation, environmental and water engineering. The course produces Engineers who can design, construct and supervise projects in the various broad areas listed above and engage in research work.

### **Geomatic Engineering and Geospatial Information systems (GEGIS)**

This degree programme aims at providing graduate engineers with expertise in application of modern engineering, mapping, computing and space technology tools. These include Geospatial Information Systems (GIS), satellite Remote Sensing, satellite based Global Positioning Systems (GPS), digital mapping and imaging, Navigation and other computer based data management and visualization technologies. Such tools are applied in acquisition, assessment, processing, management, analysis, modeling and dissemination of land/location/position based or associated (geo-referenced) information including satellite derived information. Graduates of this program can find work in the physical, built, industrial and business environments.

### **Mechatronic Engineering**

The degree program aims at producing graduate engineers with an in-depth understanding of modern manufacturing technologies combined with expertise in electronic and computer-based technology. The study of Mechatronic Engineering involves aspects of Mechanical and Electrical/Electronic Engineering and controls. It has a strong emphasis on design of efficient systems for manufacturing. The course aims at providing engineers to lead or work in multi-disciplinary design teams on products and processes that have both mechanical and electronic dimensions.

### **Mechanical Engineering**

The program aims to produce graduate engineers with expertise in Design, Manufacturing/Production and maintenance of mechanical systems, processes and products. The program has a very strong emphasis in engineering design. In the final two years, graduates can specialize in Thermo fluids, Automotive or Production Engineering. Graduates of this program can find work in a large range of industries such as in manufacturing, aviation, oil industry, building services, vehicle manufacturers, power generation and transmission, etc.

### **Agricultural and Biosystems Engineering**

This new 5 year program was accredited by the Engineers Board of Kenya in August 2012. It allows students to major in any of the following options during the fourth and fifth year of study:

- a) Soil, Water and Environmental Engineering option
- b) Biomechanical and Processing Engineering option

The programme aims at producing specialized Engineers combining biological and technical skills to address issues in agro-industrial development and the consequent environmental problems. Graduate Engineers will be equipped with necessary knowledge and skills for sustainable utilization of natural resources, optimal design and management of bio-production and processing systems, and harnessing and management of energy systems. Graduates will find jobs in both private and public sectors in various engineering fields and in particular bio-processing systems design, design and production of bio-processing machines and structures, waste management, irrigation and drainage engineering, soil and water conservation and environmental management.

### **Marine Engineering**

This degree program is designed to provide qualified manpower that can develop and maintain ship propulsion units, ship structures and all support machinery, as well as initiate manufacturing projects or improve existing maritime operations. Hence graduates of this program will work in the high seas, and may be considered for registration by the Kenya Maritime Authority (KMA). From expert projections, about 45,000 offers will be required globally in the next four (4) years. In addition to covering the syllabus content, successful applicants will also be expected to undergo cadet training, and acquire the necessary life skills.

### **Geospatial Information Science**

Geospatial Information Science (GIS) is a 4 year course that brings together the disciplines of computing, surveying, mapping, cartography and visualisation, environmental science and statistics for the collection, analysis and modelling of spatially based or associated information. GIS is a rapidly developing discipline, and is applied in order to address problems and offer optimal solutions in an increasing range of applications where spatial, location / position based information is important. This includes but is not limited to sustainable environmental and natural resources management, exploration and mining, land ownership, urban and regional planning, facilities and utilities management, asset management, health planning, demographic marketing etc. Indeed, over 80% of all data handled today is location / position based or associated. The programme places emphasis on modern techniques of geodesy, digital mapping, Remote Sensing, cartography, Geo-information, Satellite Positioning such as Global Positioning System (GPS) but also offers adequate foundation on traditional geo-information data acquisition and processing techniques.

### **Mining and Mineral Processing Engineering**

This programme aims at producing Engineers specialized in both mining and mineral processing. Mining engineering is basically the process of taking minerals resources from the earth in response to man's needs. On the other hand mineral processing engineering involves separating valuable elements of material from unwanted waste material from the ore body, in most economical way. The program is a 5 years in which the first three all students cover common units mainly in Mathematics, applied Physics, fundamental Engineering principles and principles of mining and mineral processing Engineering. In the fourth year of study, besides the core units, a student will take elective units in either mining or mineral processing engineering. Each student will undergo a mandatory eight-week industry based practical attachment at the end of the second, third and fourth year of study. In the final year of study, every student must undertake a suitable Engineering project under the supervision of a member of academic staff.

*More details on all the programs listed above should be obtained at <http://www.jkuat.ac.ke> under the sub-title "REGULATIONS FOR THE DEGREE OF BACHELOR OF SCIENCE DEGREE IN ENGINEERING".*

*Application forms can be obtained upon payment of a non-refundable application fee of KShs. 1,500/- and returned by Friday, 11<sup>th</sup> April 2014 duly completed with official results slip/certificate to:*

## BRIEFS FOR THE PROGRAMMES

### **BSc. FOOD SCIENCE AND NUTRITION**

This course produces well trained graduates in all aspects of Food Science and Technology as well as Nutrition Science. It covers food processing, nutritional survey and surveillance, intervention programs, food and nutrition security. They have job opportunities in Food processing industries, Research organizations, NGO's and academic institutions.

### **BSc. FOOD SCIENCE AND TECHNOLOGY**

This course produces well trained students skills in the various aspects of food processing, food preservation and food quality and safety as well as aspects of postharvest biology and technology of perishable food commodities. They have job opportunities in Food processing industries, Research organizations, NGO's and academic institutions.

### **BSc. HUMAN NUTRITION AND DIETETICS**

The programme is intended to train students who will have the knowledge and skills to work as middle cadre nutritionists and dieticians, providing competent services in human nutrition and health. The program helps prepare graduates to become dietitians and nutritionists. The programme will produce graduates in the field of nutrition and dietetics who will have expertise to help prevent and alleviate malnutrition and lifestyle diseases associated with poor dietary habits, malnutrition and obesity. In collaboration with other health workers, these graduates will contribute towards enhancing health of the communities within which they work. They have job opportunities as nutritionists, dieticians and health workers.

### **BSc. FOOD SERVICE AND HOSPITALITY MANAGEMENT**

The programme is a multi disciplinary course that captures the broad skills appropriate for careers in fast growing high income earning agribusiness and food industry with emphasis on retailing through careful balancing modules from the life sciences and management sciences. It is designed provide graduates with sound business skills as well as a thorough understanding of the complexity of plant and animal tissues and how to apply the knowledge in production, handling, processing and preservation of foods in the retail sector. It provides the scientific, technological and managerial skills needed for graduates entering managerial positions in hotels, restaurants, hospitals, prisons, cruise ships, school, airlines and retail outlets such as supermarkets among others.

### **BSc. HORTICULTURE**

This programme is designed to produce graduates who will work in the ever expanding horticultural sector. Students in BSC Horticulture programme study basic sciences, Vegetable Production. Fruit Production Flower and Ornamental Plant Production. Marketing. Crop Protection. Animal Science. Technical Drawing and Survey, Agricultural Extension and Information Technology.

### **BSc. ENVIRONMENTAL HORTICULTURE AND LANDSCAPING TECHNOLOGY**

This programme is designed to equip graduates with skills in the design. Construction and management of landscapes. Career opportunities include: Greenhouse production. Interior plantscaping, floral designer. Nursery

production. Garden center. Landscape design. Management and Conservation. Golf Course superintendent. Arboretum. Urban environment planning.

### **BSc. AGRICULTURE**

The programme is designed to equip the students with all-round and multi-disciplinary skills in the field of agriculture and therefore produce graduates capable of handling the diverse human resource requirements in the agricultural sector. Students in the

BSc. Agriculture program will study basic sciences such as crop production, animal husbandry, soil sciences, agricultural economics and agricultural extension.

### **BSc.AGRICULTURAL ECONOMICS AND RURAL DEVELOPMENT**

The programme focuses on utilization control and management of natural and environmental resources together with agricultural production processes on the farm and how the activity synergies of the farm and natural resources contribute to rural development as an input.

### **BSc. AGRIBUSINESS MANAGEMENT AND ENTREPRENEURSHIP**

The programme focuses on training graduates in the area of agro and agri-business value chain management covering agricultural input sub-sector, commodity processing and marketing to food manufacturing industries, producer organizations and farmer groups, small and medium agribusiness and how the synergies from the various activities contribute to a dynamic agri-enterprise development in agricultural sector for example milk processing in rural dairy cooperatives, processing of molasses to gurus, oil processing, fish processing among others.

### **BSc. AGRIBUSINESS ECONOMICS & FOOD INDUSTRY MANAGEMENT**

The programme is a distinctive degree for student pursuing management careers in food industry field, which includes acquiring of primary raw materials, all level of food, fiber and bio-fuels processing, manufacturing and food value chain systems. Graduates from this program gain the skills need in management, finance, marketing and strategy to successfully work in careers that require professionals to master the understanding of the uniqueness if this food value chain.

### **BSc. ANIMAL HEALTH PRODUCTION AND PROCESSING**

This program is designed to produce graduates with skills in livestock health, production of livestock products and processing them to the finished products. Career opportunities are in animal health industry, biotechnology and biomedical industries, livestock by-product processing industries and feed manufacturing companies.

### **BSC LAND RESOURCES PLANNING AND MANAGEMENT**

Land Resources Planning and Management programme is designed to impart the skills needed to undertake basic surveys essential for the planning and sustainable management of land resources. Career opportunities are in urban and regional planning, environmental management and impact assessments, sustainable rainfed and irrigated agriculture and, land resource surveys.

### **DIPLOMA IN ORGANIC AGRICULTURE**

The 2 year Diploma Program in Organic Agriculture is designed to produce graduates who will contribute to the development of the organic agriculture value chains and it targets secondary school leavers, certificate graduates and persons working in the agricultural sector. Graduates of this course have career options in local and international firms working in production, handling, processing and marketing of organic products, Research institutions as technicians, NGO's and many others.

### **APPLICATION**

- (a) Candidates seeking admission are required to fill application forms on payment of a non-refundable fee of **Kshs.1, 500.00**. The application form is available to Foreign Students on payment of a non-refundable fee of **US\$25.00**.
- (b) The duly completed forms should be returned on or before **5<sup>th</sup> July, 2013**.

- (c) Application forms are obtainable from, and should be returned to:

**The Dean**  
**Faculty of Agriculture**  
Jomo Kenyatta University of Agriculture and Technology

## JOMO KENYATTA UNIVERSITY OF AGRICULTURE AND TECHNOLOGY (JKUAT)

Announces the May 2014 intake for the Diploma in Architecture offered at:

### NAIROBI INSTITUTE OF TECHNOLOGY (NIT)

#### CURRICULUM

The curriculum offered is approved by the University Senate and taught by Senate approved lecturers. The examinations are moderated, administered and processed by the University Senate.

COURSE	MINIMUM ENTRY REQUIREMENTS	DURATION	NEXT INTAKE
Diploma in Architecture	KCSE Aggregate grade C or equivalent and grades C- in English/Kiswahili, Mathematics, Physics, Geography or Drawing and Design or Art and Design or History and Government or Chemistry (C in Physical Science) OR A-level Certificate with One Principal Pass in Mathematics or Physics and Two subsidiary Passes or other equivalent qualifications as approved by the University Senate.	6-semester (A semester= 16 weeks	05 <sup>th</sup> May 2014 <b>Application forms to be returned by 28<sup>th</sup> March 2014</b>

The programme will be conducted at Nairobi Institute of Technology located on Westlands Road in Westlands (Nairobi).

On successful completion of the Diploma, one is eligible to join JKUAT's Bachelor of Architecture, Bachelor of Landscape Architecture or Bachelor of Construction Management Degree Programmes and will be given credit for work done.

#### APPLICATION PROCEDURE

Application for the course is done on official application forms, which may be obtained from the Director, Nairobi Institute of Technology (NIT) or the Dean, School of Architecture and Building Sciences (SABS) – JKUAT upon payment of a non-refundable fee of Kshs. 1,000.00.

<b>Course</b>	<b>Course Description</b>	<b>Minimum Entry Requirements</b>	<b>Duration</b>	<b>Next Intake</b>
<b>B.Sc. Computer Science</b>	The course is designed to meet the increasing need for high quality computer science professionals in a wide range of roles. Students are exposed to theoretical and practical knowledge in a wide range of areas in both hardware and software. In addition, students undergo training that enhances their problem solving and analytical skills, IT project management skills, and general management.	Mean Grade: KCSE C+ and an average Grade A- (Minus) in one of the following two combinations of three subjects taken in KCSE (or equivalent examination); <i>either</i> Mathematics, Physics, Chemistry <i>OR</i> Mathematics, Physical Sciences, Biological Sciences.	Full Time 4 Years academic years (8 semesters offered in two per year)	<b>May 2014</b> Apply by 31 <sup>st</sup> March, 2014

**ADVERTISEMENT - MAY 2014 INTAKE**

<b>Sc. Computer chnology</b>	The course offers training in the practical application of computing that merges knowledge from IT and electronics to produce professionals capable of accelerating the uptake of computing technology. Students learn theoretical and practical skills in computing and electronics that put them at the forefront in development of both hardware and software tools to drive ICT adoption.	Mean Grade: KCSE C+ and an average Grade C+ (Plus) in one of the following two combinations of three subjects taken in KCSE (or equivalent examination); <i>either</i> Mathematics, Physics, Chemistry <i>OR</i> Mathematics, Physical Sciences, Biological Sciences.	Full Time 4 Years academic years (8 semesters offered in year)
<b>Sc. in I.T. tage I)</b>	The course provides adequate training, knowledge and skills in order to develop solution providers in the ICT dynamic world and prepare graduates for progression to higher levels of study in their fields of specialization.	Mean Grade: KCSE C+ (C PLUS) with at least grade C (C PLAIN) in English and Mathematics Pass: Diploma in Information Technology Pass: Diploma in Management and Information Technology <b>KACE:</b> 2 Principal passes An overall PASS in: <ul style="list-style-type: none"> <li>• JKUAT-Diploma Information Technology</li> <li>• JKUAT-Diploma in Management and Information Technology</li> <li>• <b>K.S.P.S:</b> Ordinary and Advanced Diplomas in Information Technology</li> </ul> <b>Or</b> the equivalent qualification approved by the University Senate.	Full time <b>3 years</b> (8 semesters offered in system)
<b>Sc. in I.T. tage II) ll Time</b>	The course provides adequate training, knowledge and skills in order to develop solution providers in the ICT dynamic world and prepare graduates for progression to higher levels of study in their fields of specialization.	A <b>Credit</b> pass in JKUAT Diploma in IT <b>JKUAT Diploma in Management and IT</b> JKUAT Bridging course in IT  KSPS Advanced Diploma in IT	<b>2 Years</b> (full-time) including attac
<b>Sc. in I.T. tage II) rt Time</b>	The course provides adequate training, knowledge and skills in order to develop solution providers in the ICT dynamic world and prepare graduates for progression to higher levels of study in their fields of specialization.	A <b>Credit</b> pass in <ul style="list-style-type: none"> <li>• JKUAT Diploma in IT</li> <li>• <b>JKUAT Diploma in Management and IT</b></li> <li>• JKUAT Bridging course in IT</li> <li>• KSPS Advanced Diploma in IT</li> </ul> <b>Or</b> the equivalent qualification approved by the University Senate	<b>2 and 1/2 Years</b> (7 Semesters offered in systems -Evenings)
<b>Sc. Business mputing</b>	The course opens up a wide range of career opportunities in software development, or more general IT roles, which can lead to Project Management, IT and general management as well as a wide range of specialist technical roles. Prepare graduates for progression to higher levels	<ul style="list-style-type: none"> <li>• Mean Grade: KCSE C+ (C PLUS) and grade C in Mathematics and English;</li> <li>• 2 Principal passes at A level Kenya Advanced Certificate of Education</li> <li>• A pass in JKUAT-Diploma in Management and I.T.</li> </ul>	<b>3</b> (Full-time) including attac

	of study in their fields of specialization.		
<b>Diploma in I.T. Stage I full-time</b>	The course is intended to provide students with a wide range of software, technical and technological ICT skills required by industry at the diploma level. A graduate will be expected to develop an IT solution to a practical business problem using an engineering approach.	<ul style="list-style-type: none"> <li>• <b>Mean Grade:</b> KCSE C (Plain) and grades C- in English and Mathematics.</li> <li>• Division II in KCE with credit in English and Mathematics</li> <li>• <b>KACE</b> certificate with a subsidiary pass in maths</li> </ul> <b>Or</b> the equivalent qualification approved by the University Senate.	<b>18 Months</b> (full-time) including attachment
<b>Diploma Stage II full-time</b>	The course is intended to provide students with a wide range of software, technical and technological ICT skills required by industry at the diploma level. A graduate will be expected to develop an IT solution to a practical business problem using an engineering approach.	- A Distinction/credit pass in JKUAT Information Technology Certificate.	<b>14 Months</b> (full-time) including attachment
<b>Certificate in I.T. full-time</b>	The course is intended to provide students with technical and technological ICT skills required by industry at the certificate level. Provides the graduate with avenue to progression upon attainment of <b>Credit</b> and above.	<b>Mean Grade:</b> KCSE grade C- <b>Or Division III in KCE</b>	<b>3 Months</b> (full-time)

## JKUAT REGIONAL ACADEMY CISCO NETWORKING ACADEMY PROGRAMME

<b>SCO Certified Networking Associate (CCNA) Module 1-4</b>	The curriculum emphasizes on the use of decision-making and problem-solving; techniques to build Local Area Networks (LANs) and Wide Area Networks (WANs)	KCSE and an interest in IT with basic Computer Skills. (Those awaiting KCSE results can also apply)	<b>One Months per module</b> - Day Time Class - Evening Class - Weekend Class	
<b>Essentials: PC Hardware Software</b>	Students will learn how fundamentals of computer hardware and operating systems and carry out preventive maintenance and trouble shooting.	KCSE and an interest in IT. (Those awaiting KCSE results can also apply)	<b>One Month</b> - Day Time Class - Evening Class - Weekend Class	
<b>SCO Certified Networking Associate (CCNA) Security</b>	The curriculum teaches students on practical aspects of information and network security	Understanding of Computer Networking a prerequisite	<b>One Month</b> - Day Time Class - Evening Class - Weekend Class	

Application forms can be obtained from the School of Computing and Information Technology, JKUAT or downloaded from the university website indicated below. Duly completed applications forms with copies of results slips/certificates and two coloured passport size photographs must be returned to the School by 31<sup>st</sup> March, 2014 upon payment of non-refundable application fee of **Ksh.1,500.00** for B.Sc. courses and **Kshs.500.00** for the Diploma and Certificate courses.

<b>Bachelor of Radiography; Upgrading Module (Part Time)</b>	Applicants must have a Diploma or HND in Medical Imaging Science from an institution recognized by the University Senate <i>NB: Learning for the upgrading module will be done on Fridays, Saturdays and Sundays.</i>
<b>BSc. Medical Microbiology</b>	KCSE Mean Grade of C+ (Plus). In addition , the applicant must have either of the qualifications listed below: <b><u>Alternative A</u></b> Biology C+ Mathematics C- Chemistry C- <b>Or</b> a Minimum of 2 Principal passes in science subjects in IGSE/GCE or KACE, one of which must be Biology. <b>Or</b> a Diploma in the relevant science subject from an institution recognized by the University Senate. <b>Or</b> any other qualifications accepted by the University Senate as equivalent to any of the above.  <b>EXEMPTIONS:</b> Diploma Holders with Credit Pass will join 2 <sup>nd</sup> year Level, whereas HND Holders will join 3 <sup>rd</sup> year Level.
<b>B Sc. Medical Laboratory Sciences – Direct Entry</b>	<b>KCSE Mean Grade of C+ (Plus).</b> In addition , a student must have the following alternative combinations of cluster subjects , at the minimum grades shown: <b><u>Alternative A</u></b> Biology C+ Chemistry C+ Mathematics/Physics C English/Swahili C+ <b><u>Alternative B</u></b> Biological Sciences B- Physical Sciences B- English/Swahili C+  <b>Or</b> a Minimum 2 Principal passes in Biology and Chemistry at A' Levels.
<b>B Sc. Medical Laboratory Sciences – Mature Entry Applicants (Upgrading Module)</b>	Applicants must have a Diploma/Higher National Diploma in Medical Laboratory Technology from an institution recognized by the JKUAT Senate. <i>NB: Learning for the upgrading module will be done on Fridays, Saturdays and Sundays.</i>
<b>Postgraduate Diploma in Medical Laboratory Sciences (PGDipMLS):</b>	Applicants must have a minimum of an undergraduate degree in any biological-based discipline from a university recognized by the JKUAT Senate with the equivalence of an honours degree.  <b>PGDipMLS full-time module duration: 1 year</b> (Learning on Mondays to Fridays) <b>PGDipMLS part-time module duration: 2 years</b> (Learning on Fridays to Sundays)
<b>BSc. Applied Bioengineering</b>	KCSE minimum grade of C+, C+ in Biology or Biological Sciences and chemistry. In addition a student must have passed either Mathematics or Physics / Physical Science with a minimum grade of C or have a minimum of 2 principal passes in biology and chemistry subjects in 'A' level or equivalent or have a diploma in relevant science subjects and with at least a credit pass from an institution recognized by the University Senate.
<b>BSc. Medical Biochemistry</b>	KCSE minimum grade of C+, C+ in Biology or Biological Sciences and chemistry. In addition a student must have passed either Mathematics or Physics / Physical Science with a minimum grade of C or have a minimum of 2 principal passes in biology and chemistry subjects in 'A' level or equivalent or have a diploma in relevant science subjects and with at least a credit pass from an institution recognized by the University Senate.

Course	Minimum Entry Requirements
<b>BSc. Biochemistry and Molecular Biology</b>	KCSE minimum grade of C+, C+ in Biology or Biological Sciences and chemistry. In addition a student must have passed either Mathematics or Physics / Physical Science with a minimum grade of C or have a minimum of 2 principal passes in biology and chemistry subjects in 'A' level or equivalent or have a diploma in relevant science subjects and with at least a credit pass from an institution recognized by the University Senate.
<b>BSc. Industrial Biotechnology</b>	KCSE minimum grade of C+, C+ in Biology or Biological Sciences and chemistry. In addition a student must have passed either Mathematics or Physics / Physical Science with a minimum grade of C- or have a minimum of 2 principal passes in biology and chemistry subjects in 'A' level or equivalent or have a diploma in relevant science subjects and with at least a credit pass from an institution recognized by the University Senate.
<b>Certificate in HIV/AIDS Management &amp; Counseling</b>	K.C.S.E. aggregate C- <b>Or</b> K.C.P.E. and 2 years of Secondary School Education and proven involvement in HIV/AIDS community programs.
<b>Diploma in HIV/AIDS Management &amp; Counseling (Full time)</b>	K.C.S.E. (or equivalent) aggregate C, C- in English/Kiswahili, Biology <b>Or</b> K.C.E. Division III, Credit pass in English/Kiswahili, Biology <b>Or</b> K.A.C.E. – Principle pass in Biology <b>Or</b> a holder of Certificate in HIV/AIDS Management.

The same information is readily available in our website [www.jkuat.ac.ke](http://www.jkuat.ac.ke)

**\*NB. These are the minimum requirements; other conditions may apply for individual programmes.**

Application procedure and deadline

Candidates seeking admission are required to fill application forms obtained from the offices indicated below upon payment of non-refundable application fees of Kshs.500/-for certificate, Kshs. 1,000/- for Diploma and Kshs.1,500/- for under graduate courses. Completed application forms should be returned not later than Monday 14<sup>th</sup> April, 2014.

**JOMO KENYATTA UNIVERSITY OF AGRICULTURE AND TECHNOLOGY (JKUAT)**  
**School of Open, Distance and eLearning (SODeL)**

**ANNOUNCES THE OPEN, DISTANCE AND eLEARNING PROGRAMMES**

**May 2014 Intake**

JKUAT has introduced the **new mode of learning coordinated by the School of Open, Distance and eLearning (SODeL)** previously known as the Continuing Education Programme (CEP). The School was inaugurated in May 2012 following the amalgamation of the CEP and eLearning sections. The enhanced mandate incorporates the JKUAT Continuing education, Distance learning, Open Learning and eLearning modes of study.

**JKUAT SODeL wishes to announce the May 2014 Intake into various distance learning programmes to be facilitated online and from JKUAT Accredited Centers and JKUAT campuses situated in all major towns in Kenya and in Arusha, Tanzania.**

This is a golden opportunity to undertake your dream JKUAT Postgraduate, Undergraduate Degrees, Diplomas and Certificates courses at your own convenience, in time, location and cost among other benefits.

**Curriculum**

The curriculum offered is approved by the University Senate and facilitated by Senate approved lecturers. All the examinations will be moderated, administered and processed by the University Senate. Upon completion of the respective programmes, awarding and graduation by the University senate for all Degree and Diploma students will be at the JKUAT main Campus in Juja.

**Mode of Delivery**

For each semester, enrolled students will be required to attend two (2) on-campus sessions and do most of the learning on their own while being supported online through our versatile learning management system.

**DISTANCE LEARNING PROGRAMMES**

**CERTIFICATES & DIPLOMAS**

**MAY 2014 INTAKE**

**Introduction**

JKUAT Mombasa CBD Campus is located at the heart of the coastal city of Mombasa in the stylish Mombasa Trade Centre (formerly Ambalal building) along Nkrumah road. The campus is the sole occupant of the Northern Tower of the complex and it provides a classic 360 degrees view of the city and the incredibly beautiful horizons of the Indian Ocean. This location provides a rare, serene, relaxed and conducive learning atmosphere. We are particularly the campus of choice for students who wish to experience quality education in a serene and truly relaxing coastal setting. Applications are now invited from suitably qualified candidates to pursue the following courses.

COURSE TITLE	QUALIFICATION	DURATION & PATTERN
1. Bachelor of Commerce 2. Bachelor of Science in Information Technology STAGE 1 3.
